Student Acceptable Use Policy for Internet & Computer Use

The information requested on this form is collected pursuant to the School Act, Section 34 and in accordance with the Freedom of Information and Protection of Privacy Act (FOIP). The information will be used to establish that students, parents and teachers have an understanding of the policy for Acceptable Internet use and consented to the rules and precautions in place for such usage. If you have questions concerning the collection or use of this information please contact your school administrator. This form and your consent will be valid from the day that your child begins attending the Greek Community School until your child withdraws from or completes/graduates from the Greek Community School unless you revoke your consent by notifying the School Principal in writing.

Students in the Greek Community School are provided access to the Internet. The Internet, a network of computer networks, allows our students to interact with hundreds of thousands of networks and computers. Within our school and library, the Internet and e-mail may be used by our students for educational purposes. There is no intent that students use Internet access from Greek Community School computers for personal use. The Internet is similar to other student learning resources such as books, magazines, videos, CD-ROMS and encyclopedias.

Conditions and Rules of Use

The Hellenic Society of Calgary and District and the Greek Community School reserve the right to access, audit and monitor use of all supplied Information Technology (IT) resources for non-compliance to this policy, without prior notice to the user. There is no expectation of privacy on behalf of the user with the regard to information technology resources. It is a general policy that all computers used through the Greek Community School are to be used in a responsible, efficient, ethical and legal manner. Failure to adhere to the policy and guidelines for the use of the network as described below will result in the revocation of access privileges. Unacceptable uses of the network include, but are not limited to:

- Using the network for any illegal activity, including violation of copyright or other laws.
- Using the network in ways which violate school policies and behaviour standards.
- Using the network for financial or commercial gain.
- Degrading or disrupting equipment or system performance.
- Invading the privacy of other individuals by accessing and/or vandalizing their computerized data.
- Wasting technology resources, including bandwidth, file space, and printers by downloading music or video files, except for those identified as legitimate curriculum resources.
- Gaining unauthorized access to resources or entities.
- Using an account owned by other users with or without their permission.
- Posting personal communication, including photos of another person, without that other person's consent.
- Giving one's account and password information to other users.

Network Etiquette

All users are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to:

- Being polite in all of your communications to others.
- Using appropriate language.
- In all activities being compliant with municipal, provincial, federal or international law.
- Maintaining the confidentiality of your personal address and phone numbers and those of the students and colleagues.
- Not using the network in such a way that you disrupt the use of the network by others.
- Assuming that all communications and information accessible via the Internet are the private property of those who put it on the Internet

Vandalism and Harassment

Vandalism and harassment will result in cancellation of user privileges. Vandalism is defined as any malicious attempt to harm, modify, or destroy data of another user, the Internet or other networks that are connected to the Internet. This includes, but is not limited to, the uploading or creating of computer viruses. Harassment is defined as the persistent annoyance of another user or the interference of another user's work. **"Harassment" is further defined as any unwelcome behaviour, conduct or communication, directed at an individual that is offensive and/or annoying to that individual.**

Unacceptable Material

Because access to the Internet provides connections to other computer systems located all over the world, students (and parents) must understand that neither the Hellenic Society of Calgary and District or the Greek Community School or any of their members or staff control the content of the information available on these systems. Some sites accessible via the Internet may contain material that is inappropriate for educational use in a K-12 setting, such as hate literature, pornography, and information related to immoral or illegal activities. The Hellenic Society of Calgary and District and the Greek Community School does not condone the use of such materials and does not permit usage of such materials in the school environment. The Hellenic Society of Calgary and District and the Greek Community School uses Internet filtering software in addition to teacher supervision to reduce the likelihood of students accessing inappropriate Internet sites. In the event a student inadvertently accesses an inappropriate Internet site, he/she must advise the supervising teacher of the inadvertent access.

Penalties for Improper Use

- Violation of the Hellenic Society of Calgary and District and the Greek Community School's Acceptable Use Policy may result in:
- restricted network access
- loss of network access
- disciplinary action
- legal action
